Summary

Full Stack Developer with experience in building scalable web and cross-platform applications using **React.js, Node.js, Express.js, MongoDB, Firebase, and Flutter**. Proficient in developing **RESTful APIs, authentication systems (JWT, Firebase Auth)**. Skilled in creating responsive UI, data visualization, and integrating third-party services including **cloud storage**.

Education

University of Engineering and Management Jaipur
Bachelor of Engineering in Computer Science : 7.86 CGPA *Aug. 2020 – May 2024*

Experience

Web Developer Intern Feb 2025 – Aug 2025
Vefes Engineering

- Developed scalable UI components in React, connected to database-backed APIs, improving UI consistency and reducing styling issues by **40%**.
- Built a full-stack cost estimation system (React + Express + Mongodb), automating pricing workflows, enabling data persistence, and reducing manual effort by **60%** .
- Designed and implemented data-driven forms using React with database integration, improving submission success rates by 25–35% through robust validation and UX.

Projects

ChitChat | *React, MongoDB, Express, Zustand, JWT Auth, Socket.io, Arcjet*

- Built a full-stack real-time chat application using React, Node.js, Express, and MongoDB
- Implemented JWT-based authentication and secure REST APIs for user management
- Developed real-time messaging with Socket.io, including online/offline status and typing indicators
- Integrated features like image uploads (Cloudinary), notifications, and responsive UI with Tailwind

FinTrack | *Typescript, React, Firebase, Ant Design*

- Developed a finance tracker using React and Firebase for real-time data management
- Implemented user authentication and cloud database integration
- Enabled CSV import-export and time-based filtering for efficient financial tracking
- Built interactive dashboards with Ant Design Charts for expense visualization

Github Wrapper | *React*

- User Search: Dynamically search for GitHub users as you type.
- Paginated Results: Browse through search results with a simple pagination control.
- Sort & Filter Repos: Sort repositories by stars, forks, name, or last updated date. Filter repositories by programming language.
- Bookmarking: Save your favorite repositories. Bookmarks are stored locally in your browser.

Technical Skills

Languages: C, C++, JavaScript, TypeScript, SQL
Frontend: HTML, CSS, Javascript, React, Redux, Zustand, Flutter
Backend: Node.js, Express.js, MongoDB, Firebase , Docker Basics
Other: API Horizontal Scaling, Postman, REST APIs, Render, Vercel, GitHub

Achievements

GATE Qualified 2025
NET Qualified 2024
IIT jodhpur phd shortlisted
TCS NQT prime shortlisted
GYT Hackathon Winner
